FIT Learning Transforming Corporate Learning with AI

Discover how **FIT Learning** is revolutionizing corporate learning with AI-powered solutions. We offer digital learning and corporate training solutions that combine training, innovation, and cutting-edge technology.

FIT Learning: Always a step ahead in the digital learning revolution.

por Fit Learning Systems S.L.

SmartMobile LMS: The Evolution of Corporate E-Learning

SmartMobile is a fully developed LMS platform by **FIT Learning**, designed for the management, distribution, and tracking of digital learning, offering a flexible, customizable, and optimized solution with multi-platform accessibility and integration of artificial intelligence.

24/7 Access + Support

Access your courses and training materials from any device, whether mobile or desktop, at any time and place, ensuring continuous and uninterrupted learning.

Time Reduction

Optimize training management by up to 80%, thanks to process automation, centralized administration, and easy course assignment.

AI Integration

Perfect integration with artificial intelligence tools, allowing for the creation of personalized content, real-time resolution of doubts, and report generation.

ADI NEX: Your Intelligent Virtual Assistant

1

Real-Time Responses

Get immediate answers to your questions about any course or content you want support on. ADI NEX is available 24/7, in any language, 7 days a week, to instantly resolve your doubts.

2

Improved Retention

ADI NEX helps you remember and apply what you've learned, reinforcing key concepts and providing you with practical exercises. Improve your knowledge retention and achieve your learning goals.

3

Personalization with Generative AI

ADI NEX uses generative AI to personalize your learning experience, adapting the content to your individual needs and preferences. Receive recommendations and access frequently asked questions and query suggestions.
