

SmartContent: Revolutionizing Custom Course Development

Discover how **FIT Learning** is transforming corporate training, offering personalized solutions tailored to the needs of the future.

 por Fit Learning Systems S.L.

What is SmartContent?

SmartContent is the solution from **FIT Learning** that combines the expertise of experts and the power of AI to create customized e-learning courses, with a focus on microlearning, that transform corporate training.

Innovative Solution

Customized courses, adapted to each need.

AI + Experience

Combination of artificial intelligence and human expertise.

Microlearning

Focus on high-quality knowledge pills.

Microlearning: The Key to Learning

Short Videos

2-3 minutes in duration for maximum attention.

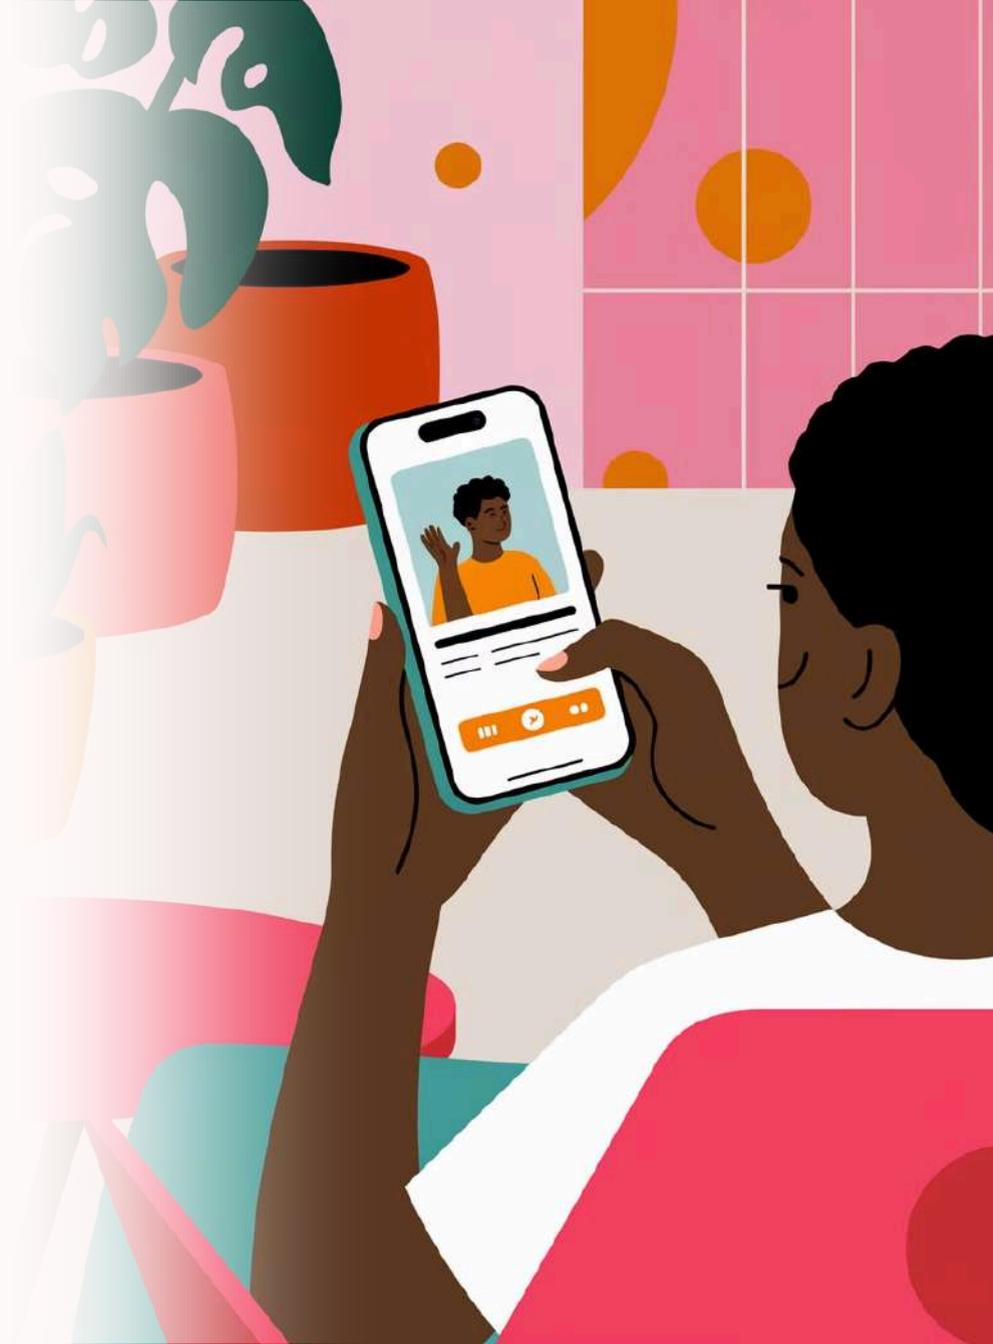

Mobile Format

Optimized for learning on any device.

Higher Retention

User engagement and knowledge retention.

The Power of AI in Every Phase

1

Scripts

Assistance in developing effective scripts.

2

Production

Optimization of video production with AI.

3

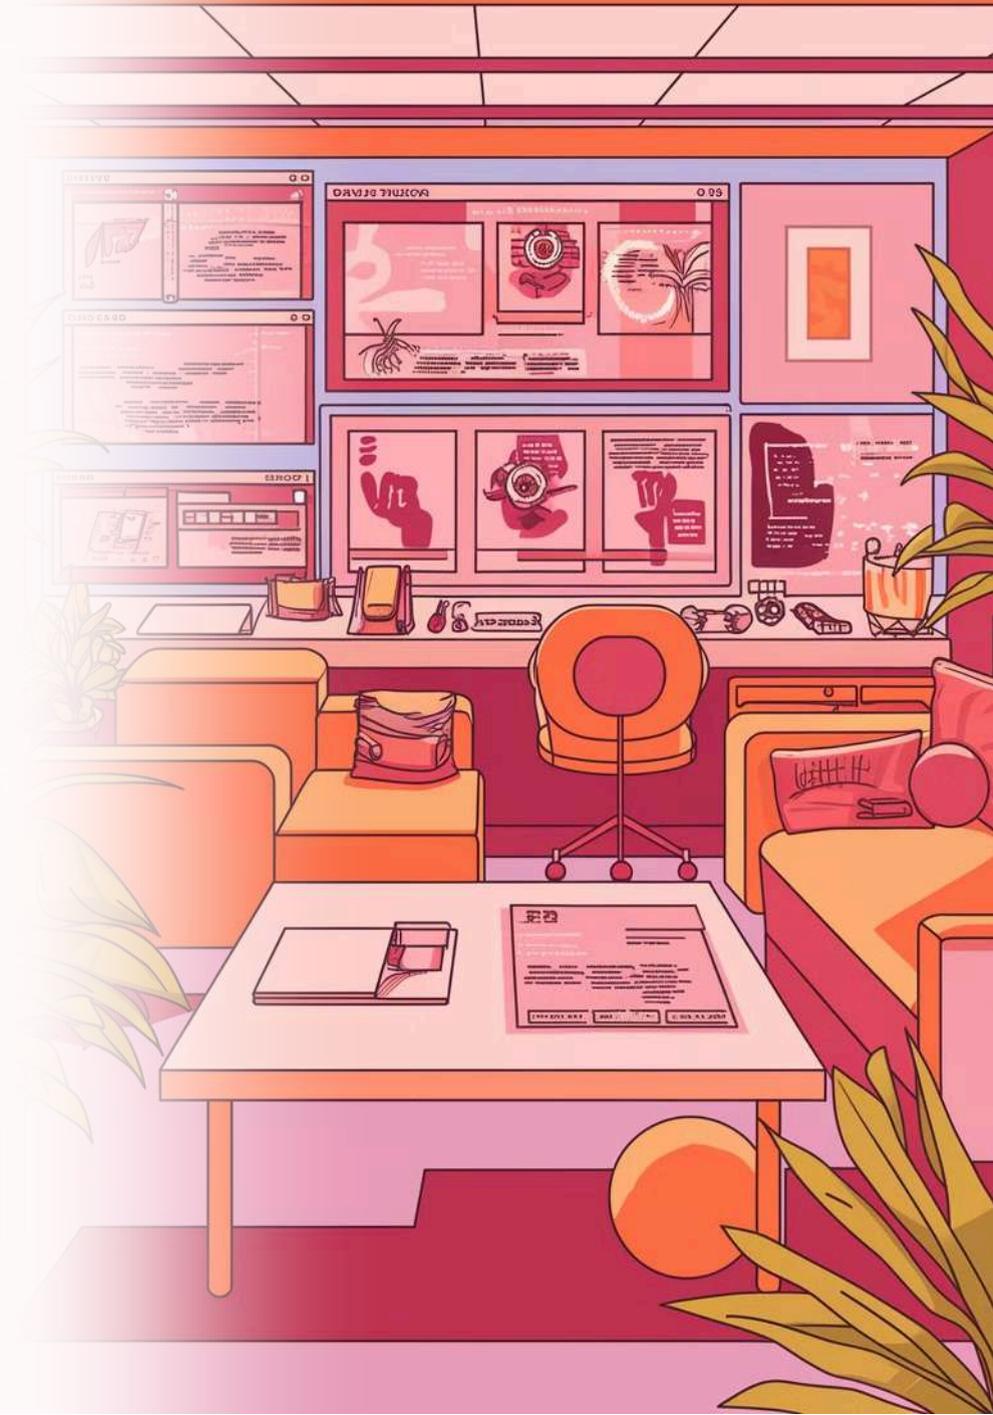

Multilingual

Generation of content in multiple languages.

4

Personalization

Adaptive learning for each user.

FIT Learning Expert Team

Supervision

Guaranteed quality at every stage of the process, ensuring excellence in all our courses.

Specialists

High-level pedagogy and multimedia production to create effective learning experiences.

Content

Relevant, up-to-date and high-impact to maximize learning outcomes.

Our team transforms artificial intelligence into exceptional learning experiences. We combine innovation and expertise in corporate training to drive the growth of your team.

Innovative Development Process

Needs Analysis

Identification of specific objectives and requirements.

Content Design

Creation of scripts and pedagogical structure.

Multimedia Production

Development of videos and interactive elements.

LMS Implementation

Integration into learning platforms.

Advantages of SmartContent

SmartContent offers significant benefits for modern corporate training:

Reduced Time

Faster and more efficient production, optimizing resources and accelerating content development.

Adaptability

Customized solutions for specific needs, ensuring relevance for each organization.

Constant Updating

Content always up-to-date with the latest trends, ensuring current training material.

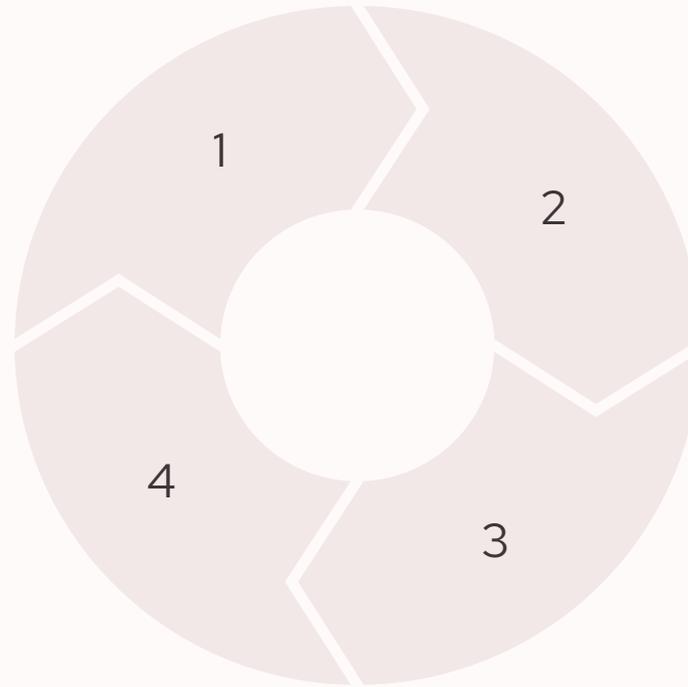

Immersive Experience

Engaging and high-impact learning that improves retention and engagement.

Cutting-Edge Technology

User Experience
Intuitive and attractive interfaces

Adaptive Content
Personalization based on needs

Robust Infrastructure
Secure and scalable platform

Artificial Intelligence
Advanced learning algorithms

Our technology combines the latest advancements in artificial intelligence with proven pedagogical methodologies, creating a unique and effective learning experience for each user.

Success Stories

BBK

We drive training, improving skills and adapting to new challenges in the sector.

Cellnex

We facilitate continuous learning in cybersecurity, optimizing their performance and promoting a culture of security.

Lantik

We develop customized training programs, ensuring constant updating of DFB-BFA professionals.

More than 200 custom video and course development projects in Scorm format.

Examples and Demos

AI Videos

Explore our demos of videos developed with AI and virtual avatars.

SCORM Courses

Access examples of custom-developed courses ready to be included in your LMS platform.

Demos
