# IMMERSE YOURSELF IN EVERYTHING OR DOMINATE THE ESSENCIAL?

**IT'S YOUR CHOICE**

AI has revolutionized all areas of your life, and your education as well.

The information you need to know continues to grow all the time. Think you can be a specialist in everything?

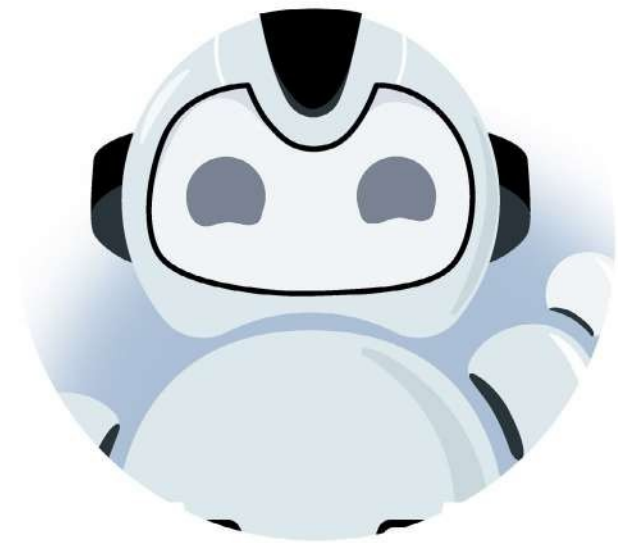

ADI is the first virtual assistant included in an e-learning platform, SmartMobile, which will allow you to know in real time any detail about any subject.

***MAXIMIZE YOUR TIME: LEARN ESSENCIAL, CONSULT THE REST INSTANTLY."***

# USING ADI IS SIMPLE!

- 01.** **Add information** about your product or services, including your manuals, your webinars, videos or websites explaining the use of your service or products and with all its of it's options and functionalities.
- 02.** **Training ADI is very easy**, you just have to activate the option that most interests you:
  - "ADI WHITE"** trains ADI to learn only on the basis of the information you provide.
  - "ADI RED"** trains ADI in a more intensive way, allowing for more information to be added with access to the internet.
  - "ADI BLACK"** expands the information by directly accessing the Internet.
- 03.** **ADI learns about your pdfs**, your videos, your webinars or your favourite websites. It is able to converse with you... and it is never wrong.

THESE ARE SOME OF THE QUESTIONS

YOU CAN ASK **ADi**

**ON THE SUBJECT OF USING CERTAIN COMPUTER PROGRAM :**

*How can I change my SAGE HR password?*

---

TÚ que tengo que hacer ante un ataque de ransomware

23:35

Si te encuentras en una situación en la que has sido víctima de un ataque de ransomware, hay algunas cosas que puedes hacer. Primero, debes desconectar el dispositivo infectado de Internet para evitar que el malware se propague a otros dispositivos en tu red. Luego, debes informar el ataque a las autoridades y a tu empresa de seguridad

## ADI's INTERFACE

# ADI

Hola Guillermo, ¿En que podemos ayudarte?

Ten en cuenta que las respuestas pueden tardar entre 30s y un minuto

TÚ recomiéndame 2 libros sobre ciberseguridad

Dos libros recomendados sobre ciberseguridad son: 'Ciberseguridad: Protección de sistemas informáticos' de Eduardo Germán y 'Ciberseguridad para dummies' de Chey Cobb . Ambos libros son muy accesibles y ofrecen una introducción completa a los conceptos básicos de la ciberseguridad, así como a las mejores prácticas y técnicas de protección.

ADI

TÚ resume el primero

El libro 'Ciberseguridad: Protección de sistemas informáticos' de Eduardo Germán es una guía completa para proteger sistemas informáticos de todo tipo de amenazas. El autor cubre temas como la seguridad de la información, la criptografía, la seguridad de los sistemas operativos y las redes, y la gestión de incidentes de seguridad.

ADI

# QUESTIONS AND ANSWERS

## ABOUT **ADI**

### 1. DO I NEED TO INSTALL ANYTHING ON MY COMPUTER OR TABLET?

No, you just need to have a platform SmartMobile with activated ADI module and internet connection

### 2. WHAT KIND OF QUESTIONS CAN ADI ANSWER?

ADI will answer all kinds of questions related to the subject of your course or area of interest.

### 3. HOW DO I ADD THE AI TO A COURSE OR SUBJECT AREA?

You only have to enable the option "TRAIN ADI" and decide how you want it to do so. The "ADI WHITE" option limits the knowledge of ADI to the documents, videos or urls that you want to include, without allowing it to extend the knowledge with other existing documentation on the internet. If you decide for a complete experience, choose the "ADI RED" option.

### 4. IS IT SAFE?

Yes, ADI is hosted on secure Azure servers and your information is not used to train ChatGPT. When using the ChatGPT API via Azure, your information is protected, ensuring data privacy and security.

### 5. WHAT IS THE COST?

All you have to do is purchase the SmartMobile platform and its ADI module. The cost is calculated per active user and per package of thousands of queries.

### 6. IS THE INFORMATION I RECEIVE RELIABLE?

Yes, it is reliable, but it will depend in some cases on subjective aspects and on how you ask ADI questions. If you use option "ADI WHITE" it will answer

with the content that you have registered, so there will be no doubt about the response and its origin.

### 7. HOW LONG DOES IT TAKE TO SET UP?

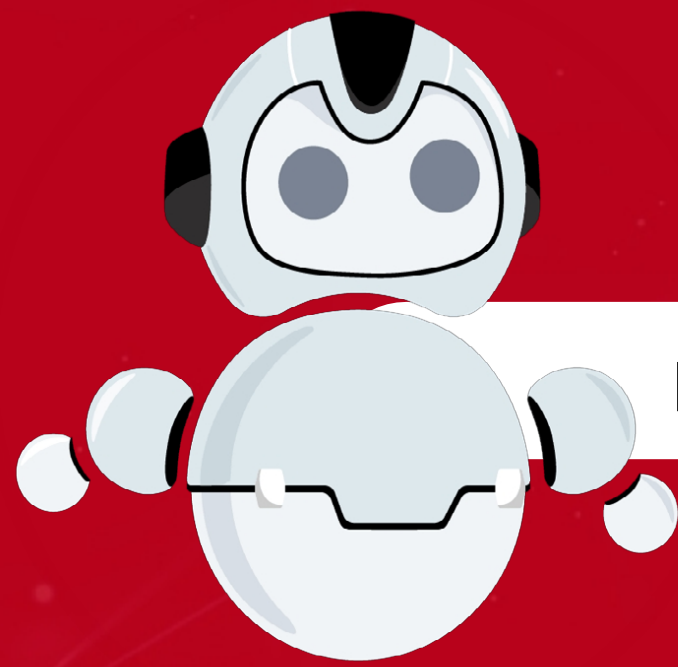

In less than 48 hours we can have your application customized and ready for you to start registering your desired content. In addition, we provide you with certified training so that you can use it with total guarantee.

### 8. BUT IS IT A CHATBOT?

No, ADI is not a chatbot. Chatbots respond according to a pre-configured decision tree, and if this is well developed the operation will be adequate, but it will never become ADI. ADI is based on **GENERATIVE INTELLIGENCE**, it responds with conversational language by learning as it is used. It learns from the sources given, and is capable of solving more complex queries. ADI does not require work of creating answers, designing decision trees or anything like that, within minutes you are ready to start work.
